### OUR EXPERTISE

We specialise in configuring and testing new and refurbished equipment in an isolated external test environment, mirroring the local factors that our customers' devices experience on a day-to-day basis, allowing you to maintain your current system whilst ensuring your new equipment is fully compliant and error-free before you turn off or decommission the existing equipment.

Our team has experience with the leading mobile device management software vendors, including **Soti MobiControl**, **Vmware Airwatch** and **Ivanti Avalanche**.

Multiplexx offer an extensive range of **shipping options** and **deliver anywhere in the world**. Working closely with leading international couriers means we can manage multiple location deliveries and same day / next day transportation worldwide.

We also offer **warehousing solutions** to accommodate project roll-outs. With our 24/7 level 3 accredited security-managed facility, our **project management** and logistical capabilities, we can hold stock ready to be shipped across the UK and Worldwide.
